

ESPRESSO MAKER

Brewing perfect espresso, mocha and more

ROMMELSBACHER

Who does not love to indulge in genuine Italian espresso. This superior electrical ROMMELSBACHER espresso maker with decorative glass jug is not only an optical eye-catcher but also convinces by its easy way of preparing espresso the traditional way. Elegant design and superior materials like high-grade stainless-steel and glass bring the unit to perfection. The appliance features an integrated heating system, which allows using the espresso maker independent of a stove. No matter whether 6 cups or – because of the filter insert included in the delivery scope – 3 cups of espresso are prepared, it is easy and convenient to operate. Just fill in water and ground espresso, replace the cordless jug on the power base, switch on and it will get going. As soon as the espresso is ready, the appliance will switch off automatically. Simply perfect!
