

STAINLESS STEEL TABLE BLENDER

Powerful, versatile and efficient.

For mixing, shaking, pureeing, crushing & more

ROMMELSBACHER

The ROMMELSBACHER table blender model MX 1250 is a real cocktail pro thanks to a 1200 watt high performance motor and a special ice crushing program. This elegant appliance can do even more: delicious, healthy smoothies from fresh fruits, frothy milkshakes, pureed soups and sauces can be prepared conveniently and quickly. With the smoothie programme, there is no need to control the speed as it works gradually also allowing a break and thus protects the motor even while preparing slush ice cream creations. The high-quality, massive glass jug holds 1.75 litres and ingredients can be filled in gradually through the practical lid opening. Additionally, the scale helps with measuring. The clear, illuminated control panel ensures easy handling. The 4-fold protection guarantees a high operational security, so that e. g. neither accidental contact with the running knife nor unintentional use is possible. There is a CLEAN programme for effortless cleaning in between, and for a thorough cleaning, the blender can be completely disassembled. A noble all-rounder for the sophisticated kitchen, also scoring with proven safety!

Technical data:

Type: MX 1250

230 V ~ 1200 W • stainless steel/glass
