FLESSY
A SHOW ON DISPLAY

THE RIGHT PRODUCT AT THE RIGHT TIME: AMAZING FLEXIBILITY

Showcase your ideas:
Flessy lets you create a
show-stopping offer
and update it whenever
you want.

Seasons pass, your customers' tastes change, but with Flessy you are always ready to tempt them with the right products. Do you need an all-food, all-snack or a half-and-half solution? You can easily manage different temperature profiles. Are the water bottles running out? Choose the Plus version with an additional side column. Do you want to increase consumption? Create a special promotion. Flessy adapts to your business ideas: all you have to do is imagine the next evolution and put it into practice. All the flexibility you want, with the visibility you deserve.

A well-lit, comprehensively-supplied display, alluring to both the eyes and the appetite: difficult, or even impossible, to resist. And if you want to be even more impressive, you can attract your clients' attention by personalising the door of the machine using stickers.

Hungry, thirsty? With Flessy, you will never leave people dissatisfied. There is a wide and diverse range of cold beverages and snacks, and the purchasing experience is intuitive and exciting at every stage thanks to the touch screen, the electronic display on the drawers and the luminous pathway that guides users in their choice.

FLESSY L

An impressive showcase
for your offer.

01 Efficient interaction by means of the 7" touch-screen interface.

02 Versions with electronic display on drawers to show prices, descriptions, and promotions.

03 Selective lighting: LEDS on each drawer for perfect product visibility.

04 Internal white cell for greater visibility of products.

05 Maximum internal flexibility, you can configure up to 7 drawers with 10 spirals.

06 Additional capacity for can and bottles thanks to the optional lateral columns.

07 Versions with luminous pathway to guide the user.

08 Door with large surface area that can be customised with stickers, attractive design with "diamond" shaped corners and natural anodised aluminium frame.

09 Illuminated dispensing compartment with transparent window showing the dispensed product.

THE DIFFERENCE IS IN THE DETAILS

Flessy has been carefully designed to provide you with a more captivating and attractive showcase.
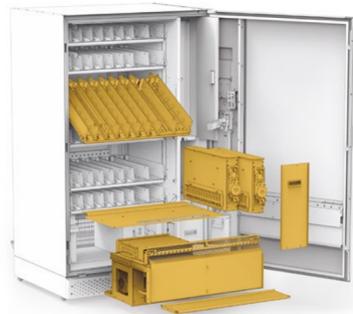

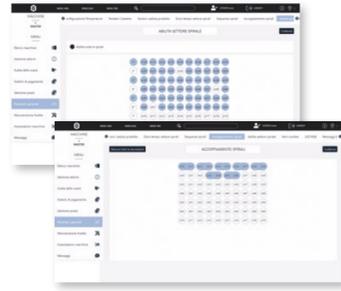

EASY

CONFIGURATION
MAINTENANCE
INTERACTION

EASY CONFIGURATION.

Physical Redesign Flessy's configuration to highlight the right products according to seasonality and your customers' preferences. The cell offers you the utmost flexibility (up to 7 drawers with 10 spirals) and you can extend the food area thanks to the air deflector that allows you to manage various zones at different temperatures.

Digital You have total control with the new BI-Creator configuration software. Thanks to the guided procedure and an intuitive graphical interface, you only set what you need and can easily change the machine layout at any time. Choose from the configuration libraries or create a personalised offer.

BI:::CREATOR

EASY MAINTENANCE.

Physical All of Flessy's physical components are easy to remove, clean and replace. However, the real revolution is that you always know what is happening "behind the scenes", with the automotive-derived electronic platform: the machine understands its own operating status and provides you with all the instructions needed to solve any problems.

Digital Gain an advantage and elevate your work to a new level of efficiency. Flessy automatically analyses and records the status of all individual electrical and electronic components, providing you with a data history that you can integrate into any third-party IoT platform.

EASY INTERACTION.

Physical A world of possibilities is a world of desires. It offers an intuitive, engaging and attractive consumer experience, with the 7" touchscreen guiding the user through their choices. Promotions and bundle sales will tempt your customers, and product information will win their curiosity and help you sell more.

Digital Can you imagine the future of vending? Flessy is equipped with a native API system that will allow you to install third-party applications such as weather, information content, user profiling systems, voice assistants: all offering even more immersive and personalised interaction with the vending machine.

FLESSY XL

EXTRA-LARGE CAPACITY AND A WARRANTY OF MORE SECURITY FOR YOUR INVESTMENT.

Choose FLESSY XL and FLESSY PLUS XL for outstanding performance in terms of capacity and offer your customers the widest possible choice. And with the anti-vandalism protection system you can safely place FLESSY even in high-traffic locations such as train or underground stations.
