

Eva - Emp 3.0

Easy Slide Out

3 Way Pay

MegaCold S/M

Description

Here is the new Saeco MegaCold line. This successful line of snack & food machines has a completely new design, with aluminium profiles and modern graphics.

MegaCold S/M is the new generation of 6-spirals snack & food vending machines with 6 removable trays for dispensing snacks, cold beverages in cans or bottles and, in the food configuration (3°C), also sandwiches and fresh products. These machines can be successfully combined with the freestanding hot Cristallo Evo 400 vending machine with base unit kit.

Accessories

- Programming key
- Eva-Dts kit with infrared connection
- Wall mounting brackets kit
- Tray display kit

Main features

- Energy class A+ machine (EVA - EMP 3.0)
- Programmable temperature (stratified configuration: 6°; 2 food trays: 3°)
- The extraction of the group is very easy and facilitated by slideways (Easy Slide out)
- Removable side panel
- Optimized ventilation to reduce energy consumption
- Automatic system for blocking/releasing the trays
- Possibility to create menus for selling more combined products
- New electronics
- Possibility to install 3 payment systems at the same time (3 Way Pay)
- Accepts the most commonly used parallel and serial MDB, BDV and Executive payment systems, besides the EVA-DTS system

User interface

- 12-button keypad
- 2-line, 20-character alphanumeric display

Technical data**MegaCold S****MegaCold M****Structural specifications**

Dimensions (w x h x d)	765 x 1750 x 800 mm	765 x 1830 x 800 mm
Overall size with open door	1400 mm	1400 mm
Weight	208 kg	221 kg

Electrical specifications

Power supply	230V/50 Hz	230V/50 Hz
Power consumption	430 W	430 W
EVA - EMP consumption (idle mode)	171 Wh/h	171 Wh/h

Other specifications

Number of trays	6	6
Bottle tray	36 bottles - h 250 mm	36 bottles - h 250 mm
Can tray	36 cans	36 cans
Snack tray	according to the spiral type	according to the spiral type
Number of spirals	36	36
Available spirals	30 (16 products) to 120 (4 products) pitch	30 (16 products) to 120 (4 products) pitch
Adjustable temperature		
Stratified configuration snack/can/bottle	6°C - 14°C throughout the cell	6°C - 14°C throughout the cell
Food configuration snack food/Tetra Pak	9°C - 14°C 4 upper trays 3°C 2 lower trays	9°C - 14°C 4 upper trays 3°C 2 lower trays

Technical specifications

- Programmable temperature based on product assortment
- The extraction of the group is very easy and facilitated by slideways (Easy Slide Out)
- The removable slot allows servicing the machine without interacting with the refrigerated area. The slot supports CPU, payment systems, display, keypad and closes the cash box area
- Insulated steel-sheet structure
- Photocells
- Height of the cells containing the trays equal to 1212 mm
- Removable plastic trays, which provide a suitable resistance to weight. The tray position can be easily adjusted with 10 mm shifts.
- Programming of sale prices
- Programmable Riella lock
- Energy class A+ (EVA - EMP 3.0)
- CE approved
